

# Spoken For

Rex Allchurch, Jim Elliott, Chris DuPre

Key of A Capo 2  
75 BPM

Em                    C    G D  
You're bigger than anything I could ever face  
Em                    C            G D  
These rolling hills turn to planes at your very word  
Em                    C                    D  
These storms can rage I'm not afraid

## Chorus:

G                    C                    Em    D            C  
I'm so sure You love me, I am spoken for  
G                    C                    Em            D                    C  
No weapon against me has any power anymore  
  
Cos I am spoken for

## Verse 2:

I'll fix my eyes heaven side, Change my point of view  
To focusing on what you say, Cos what you say is true  
These days will fade, your love will stay

## Bridge:

G                                    C/G    G                                    C/G  
There's no doubt in my mind, That come the end of time  
G                                    C/G    G                                    Em    D/F#  
I'll lift my eyes and find, Your arms are open wide
